D. M. Sugimura, Director

CITY OF SEATTLE ANALYSIS AND DECISION OF THE DIRECTOR OF THE DEPARTMENT OF PLANNING AND DEVELOPMENT

Application Number: 3003344

Applicant Name: Kelly Foster

Address of Proposal: 5002 – 11th Avenue NE

SUMMARY OF PROPOSED ACTION

Master Use Permit to subdivide one parcel into six unit lots (Unit Lot Subdivision). The construction of townhouses has been approved under Project No. 2406293 / Permit No. 752245. This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original parcel and not to each of the new unit lots.

The following approval is required:

Short Subdivision – To subdivide one parcel into six unit lots.
(Chapter 23.24, Seattle Municipal Code).

SEPA DETERMINATION: ☒ Exempt ☐ DNS ☐ MDNS ☐ EIS
 ☐ DNS with conditions
 ☐ DNS involving non-exempt grading or demolition,
 or involving another agency with jurisdiction.

BACKGROUND DATA

Zoning: Lowrise 3

Uses on Site: Two, 3-unit townhouse buildings.

Substantive Site Characteristics:

This 6,000 square foot subject site (the “parent lot”) is a rectangular lot located on the northeast corner of the intersection between 11th Avenue Northeast and Northeast 50th Street. The site fronts on 11th Avenue Northeast and backs to an alley. Construction of two, 3-unit townhouses has been reviewed and approved on the subject property under Project No. 2406293 / Permit No. 752245. The site is not located in any mapped critical areas.

Proposal Description:

The applicant proposes to subdivide one 6,000 square foot parcel, the “parent lot,” into six unit lots with the following lot areas: Unit Lot A – 1,098.7 square feet, Unit Lot B – 823.0 square feet, Unit Lot C – 1,070.3 square feet, Unit Lot D – 983.6 square feet, Unit Lot E – 787.9 square feet, and Unit Lot F – 1,055.7 square feet. In addition, a 3-foot wide dedication to the City of Seattle along the eastern side of the parent lot will be made. Vehicular access for required parking for all proposed Unit Lots will be via an ingress, egress, and utility easement that can be accessed off of the back alley. This easement runs along the northern side of the parent lot (with a 5-foot extension into the property to the north of the subject property) to the approximate center of the parent lot, where it turns and runs between the proposed buildings. Parking will be provided within each building and can be accessed via this easement. Pedestrian access off of 11th Avenue Northeast is provided to all Unit Lots via a pedestrian access and utility easement that runs off of 11th Avenue Northeast along the northern portion of the parent lot to the approximate center of the parent lot, where it connects with the ingress, egress, and utility easement. This pedestrian access and utility easement also has a 0.5-foot extension into the property directly north of the subject property.

A Master Use Permit to demolish an existing single family residence and construct two, 3-unit townhouses has been reviewed and approved (Project No. 2406293 / Permit No. 752245). The subject of this analysis and decision is limited to the subdivision of land.

Public Comment:

The comment period for this proposal ended on October 12, 2005. During this period, no written comment letters related to this project were received.

ANALYSIS - SHORT SUBDIVISION

Pursuant to SMC 23.24.040, the Director shall, after conferring with appropriate officials, use the following criteria to determine whether to grant, condition, or deny a short plat:

1. *Conformance to the applicable Land Use Code provisions;*
2. *Adequacy of access for vehicles, utilities and fire protection, as provided in Section 23.53.005;*
3. *Adequacy of drainage, water supply, and sanitary sewage disposal;*
4. *Whether the public use and interests are served by permitting the proposed division of land;*
5. *Conformance to the applicable provisions of SMC Section 25.09.240, short subdivision and subdivisions in environmentally critical areas;*
6. *Is designed to maximize the retention of existing trees; and*
7. *Conformance to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single family housing.*

Summary - Short Subdivision

Based on information provided by the applicant, referral comments from DPD, Water (SWD), Fire Departments (SFD), Seattle City Light, the Building Plans Examiner, the Drainage Section of DPD, and review by the Land Use Planner, the above cited criteria have been met subject to the conditions imposed at the end of this decision. Detailed discussion of Criterion #7 follows below.

The lots to be created by this short subdivision will meet all minimum standards or applicable exceptions set forth in the Land Use Code and are consistent with applicable development standards. As conditioned, this short subdivision can be provided with vehicular access, public and private utilities and access (including emergency vehicles). Adequate provisions for drainage control, water supply, and sanitary sewage disposal have been provided for each lot and service is assured, subject to standard conditions governing utility extensions. The proposal site is not located in an environmentally critical area; therefore SMC 25.09.240 is not applicable. The public use and interest are served by the proposal since all applicable criteria are met and the proposal creates the potential for additional housing opportunities in the City.

ANALYSIS –UNIT LOT SUBDIVISION (CRITERION #7)

Conformance to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single-family housing.

- A. *The unit subdivision provisions of SMC Section 23.24.045 apply exclusively to the unit subdivision of land for townhouses, cottage housing developments,*

residential cluster developments, and single-family residences in zones where such uses are permitted.

- B. Sites developed or proposed to be developed with dwelling units listed in subsection A above, may be subdivided into individual unit lots. The development as a whole shall meet development standards applicable at the time the permit application is vested. As a result of the subdivision, development on individual unit lots may be nonconforming as to some or all of the development standards based on analysis of the individual unit lot, except that any private, usable open space for each dwelling unit shall be provided on the same lot as the dwelling unit it serves.*
- C. Subsequent platting actions, additions or modifications to the structure(s) may not create or increase any nonconformity of the parent lot.*
- D. Access easements and joint use and maintenance agreements shall be executed for use of common garage or parking areas, common open space (such as common courtyard space for cottage housing), and other similar features, as recorded with the Director of the King County Department of Records and Elections.*
- E. A joint use and maintenance agreement has been included on the short plat documents and should also be included on the final documents for recording.*
- F. Within the parent lot, required parking for a dwelling unit may be provided on a different unit lot than the lot with the dwelling unit, as long as the right to use that parking is formalized by an easement on the plat, as recorded with the Director of King County Department of Records and Elections.*
- G. The facts that the unit lot is not a separate buildable lot, and that additional development of the individual unit lots may be limited as a result of the application of development standards to the parent lot shall be noted on the plat, as recorded with the Director of the King County Department of Records and Elections.*

Summary - Unit Lot Subdivision

Review of this application shows that the proposed short subdivision would conform to applicable standards of SMC 23.24.045 subject to the conditions imposed at the end of this decision. The proposed developments are townhouses. The structures, as reviewed under their separate building permits, conform to the development standards for the time the permit application was vested. To assure that future owners have constructive notice that additional development may be limited; the applicant will be required to add a note to the face of the plat

that reads as follows: *“The lots created by unit subdivision are not separate building lots. Additional development on any individual lot in this unit subdivision may be limited as a result of the application of development standards to the parent lot pursuant to applicable provisions of the Seattle Land Use Code.”* A joint use and maintenance agreement will be required as conditioned at the end of this decision.

DECISION – UNIT LOT SUBDIVISION

The proposed Unit Lot Subdivision is **CONDITIONALLY GRANTED**.

CONDITIONS – UNIT LOT SUBDIVISION

Conditions of Approval Prior to Recording

The owner(s) and/or responsible party(s) shall:

1. Include the Joint Use/Maintenance Agreement on the final plat.
2. The Joint Use/Maintenance Agreement should be revised to include the common sidesewer and storm drainage system that will serve the proposed Unit Lots.
3. Complete the change required by the Zoning Correction Notice dated October 14, 2005, which states, “Please show the open space for Unit Lot B per the approved building permit, 752245.”
4. Include the required utility easements from Seattle City Light on the face of the plat and in the legal descriptions of the affected Unit Lots.
5. Post an address sign to benefit all units at a location visible from 11th Avenue Northeast and provide an easement, covenant, or other legal agreement to ensure that the address signage is maintained.
6. Have final recording documents prepared by or under the supervision of a Washington State licensed land surveyor. Each lot, parcel, or tract created by the short subdivision shall be surveyed in accordance with appropriate State statutes. The property corners set shall be identified on the plat and encroachments such as side yard easements, fences or structures shall be shown. Lot areas shall be shown on the plat. The lot areas of each parcel shall be shown on the recording documents.
7. Include the following on the face of the plat: “The lots created by unit subdivision are not separate building lots. Additional development on any individual lot in this unit

subdivision may be limited as a result of the application of development standards to the parent lot pursuant to applicable provisions of the Seattle Land Use Code.”

8. Submit the recording fee and final recording forms for approval.

Prior to Issuance of any Building Permit

1. Attach a copy of the recorded short subdivision to all permit application plans for any application for a permit to construct, demolish, or change use.
